**Comments & Recommendations:**

The Generator was found to be of good working condition and reliable for safe operation.

1. Do not exceed the capacity of the Generator.
2. Inspect the Generator regularly for damage before every use.
3. Check oil level before operation and moisture at outlet of the Generator.
4. Check the condition of the nozzles regularly.
5. Check the condition of Radiator in equal interval.
6. Unless otherwise specified, all maintenance and service must be carried out the engine Stopped.
7. **Remember - Safety always comes first!**
