Max. Rated Capacity: 317 kg(Max 2 Persons + 157KG Tools)

Description of Test: A thorough visual examination and functional test were carried out in accordance with the manufacturer's instructions. Functional tests were successfully completed at 100% of the Safe Working Load (SWL). The overload protection system was verified by applying 110% of the rated load, and the system operated satisfactorily. A proof load test at 125% of the SWL was also conducted because no previous proof load test record was available with the equipment. All tests were completed satisfactorily, and the MEWP was found suitable for continued safe operation within the manufacturer's specified limits

Note: DURING OPERATION, FULL BODY HARNESS SHOULD BE WORN.
