

CERTIFICATE OF CONFIRMATION (COC)**Product:** 4,100 Ltr Double Bunded Fuel Tank**Reference No.:** COC/2025/1257

This is to certify that the **recent fuel tank leakage test** conducted on **29-Dec-2025** has been successfully completed for the following fuel tank:

Asset ID	Capacity	Description
FTDW-169	4,100 L	Double-walled with 110% secondary containment

The entire testing process was meticulously executed by our dedicated team of experts, ensuring that all necessary precautions were taken to guarantee accurate results. State-of-the-art equipment was used, and industry best practices were followed to conduct a comprehensive evaluation of the fuel tank's integrity.

We are pleased to report that the fuel tank **passed the leakage test successfully**. No leaks, defects, or vulnerabilities were identified during the examination. This outcome is a testament to the high-quality manufacturing standards we maintain and the robustness of our fuel tank design. It reaffirms our commitment to delivering safe and reliable products to our valued customers and demonstrates our adherence to applicable industry regulations and standards.
