

CERTIFICATE OF CONFIRMATION (COC)**Product:** Socket Panel**Reference No.:** COC/2025/01944

This is to certify that the **Socket Panel test** conducted on **29-Dec-2025** has been successfully completed for the following panel:

Asset ID	Capacity
SSP-400-018	400 MAIN BREAKER Socket Panel (MCCB: 250Ax1; 160Ax2; MCB100Ax4; RCCB40Ax4; 25Ax6)

The entire testing process was meticulously executed by our dedicated team of experts, ensuring that all necessary precautions were taken to guarantee accurate results. State-of-the-art equipment was employed, and industry best practices were followed to conduct a comprehensive evaluation of the socket panel's integrity.

The socket panel was subjected to **electrical insulation, continuity, earthing, polarity, and functional testing**. All tests were completed successfully, and no defects or safety non-conformities were identified.

This certification confirms that the socket panel meets the required safety and operational standards.
