| <b>REFERENCE PROCEDURE</b> | NA     | <b>RESULT</b> | PASS |
| <b>ACCEPTANCE VALUE</b>    | (± 2%) |               |      |

### MASTER EQUIPMENT USED

|                    |                         |                                  |
|--------------------|-------------------------|----------------------------------|
| <b>DESCRIPTION</b> | <b>MODEL/TAG NUMBER</b> | <b>TRACEABILITY</b>              |
| GAS ANALYZER       | SKY8000-M5-X            | INTERNATIONAL SYSTEM OF UNIT(SI) |

UV GULF Inspection & Training & calibration Services here by certifies that the instrument above mentioned has been calibrated using standard specifications as stated in the reference calibration procedure/guideline/international standard in accordance with the quality system conform to ISO/IEC 17025:2017 and ISO 9001:2015 Pass/fail of the instrument is determined based on manufacturer specifications or customer requirements.

The Readings given are the results at the time of calibration and do not carry any implication regarding the long-term stability of the instrument UV GULF recommends recalibration of this instrument as per the manufacturers' specifications/client's requirements/standard practices.

Reported expanded uncertainty is based on a combined uncertainty multiplied by a coverage factor K=2, providing the level of confidence of approximately 95% (This statement is only applicable if the datasheet contains uncertainty estimation).

This certificate is only issued for the instrument described above and is not applicable to anything else. The certificate is considered invalid unless it has the authorized signature and stamp of the UV GULF Inspection & Training & calibration.
