------------------------	-------------------------	----------------------

This is to certify that the fore mentioned equipment was thoroughly examined and tested by the **competent Person** in accordance with relevant industrial standards. No defects affecting its **safe operation** were found at the time of inspection. The equipment is deemed safe for its intended use within specified design limits, provided regular maintenance is performed, operated by qualified personnel, and used in accordance with manufacturer's instructions. This certificate is valid until the next scheduled inspection or upon any major repair, modification, or alteration, whichever occurs first.
